Education

Dr. APJ Abdul Kalam Technical University

Lucknow, Uttar Pradesh

Bachelor of Technology in Computer Science Engineering

2022 - 2026

Technical Skills

Programming Languages: JavaScript, C, c++

Frontend: React.js, Redux Toolkit, HTML5, CSS3, SCSS, Tailwind CSS, EJS

Backend: Node.js, Express.js, REST API

Databases: MongoDB, Mongoose

Tools: Git, GitHub, VS Code, Postman, MongoDB Compass, Render, Vercel

Core CS: Data Structures and Algorithms, OOPS, Computer Networks

Projects

FitQuest — React.js, Node.js, Express.js, MongoDB, REST API

2025

- Architected user authentication with Passport.js supporting Google OAuth 2.0 and session-based login
- Developed a full-stack fitness web application with user authentication and personalized dashboard features.
- Designed a fully responsive UI to ensure seamless experience across devices.
- Integrated AI-based chatbot for workout and diet guidance.
- Implemented YouTube API integration to provide exercise video tutorials.
- Built RESTful APIs for handling user data, workout plans, and progress tracking.

Password Generator Application — React.js, JavaScript, Tailwind CSS

2025

- Constructed password generator allowing users to customize 4 parameters: length 1-128 characters, numbers toggle, symbols toggle, uppercase toggle
- Leveraged React Hooks (useState, useEffect, useCallback, useRef) for state management and component optimization
- Configured clipboard copy functionality with success feedback using navigator.clipboard API
- Created responsive UI with Tailwind CSS, tested on 3+ device sizes with WCAG accessibility compliance

Bella Vista — React.js, Node.js, Express.js, MongoDB, REST API

2025

- Developed a responsive full-stack restaurant web application using React, Node.js, Express.js, and MongoDB with modern UI/UX design.
- Built and integrated RESTful APIs for menu management, table reservations, user authentication, and order processing.
- Implemented secure login/signup functionality with JWT authentication and protected backend routes.
- Designed dynamic menu and cart features with real-time data fetching, CRUD operations, and MongoDB database integration.
- Optimized application performance using reusable React components, efficient API handling, and responsive cross-device compatibility.

Competitive Programming and Certifications

C Programming Competition, Tech Buzz 2024

2024

- Ranked 10th out of 150 participants in college-level programming competition

Coding Platforms

- Solved 80+ LeetCode problems including medium and hard difficulty levels covering Data Structures and Algorithms
- Consistent learning and practice in web development technologies including MERN stack and cloud deployment
