Education

Dr. APJ Abdul Kalam Technical University

Lucknow, Uttar Pradesh

Bachelor of Technology in Computer Science Engineering - 8.1 CGPA

2022 - 2026

Technical Skills

Programming Languages: JavaScript (ES6+), C, C++, SQL

Frontend: React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, SCSS, EJS, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code, MongoDB Compass, Render, Vercel, Netlify

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Advanced Skills: API Integration, Authentication and Authorization, CRUD Operations, State Management, Responsive UI/UX

Projects

FitQuest — React.js, Node.js, Express.js, MongoDB, REST API

2025

- Built a MERN fitness platform with 100+ exercises and 20+ personalized workout plans for users.
- Integrated 15+ REST APIs for authentication, workout tracking, and complete user management features.
- Implemented Google OAuth 2.0 authentication, reducing secure login response time by 35% significantly.
- Added AI chatbot and YouTube API integration with 25+ exercise tutorial training videos support.
- Optimized responsive UI for 3+ devices, improving application performance and reducing load time by 25%.

Password Generator Application — React.js, JavaScript, Tailwind CSS

2025

- Developed a password generator supporting 1–128 characters and 4 advanced customizable security options.
- Used React Hooks for optimized state management, component rendering, and improved frontend performance.
- Added Clipboard API functionality, improving password copy interaction speed and accessibility by 40%.
- Designed responsive Tailwind CSS UI compatible across 3+ device screen sizes and resolutions. uppercase, numeric, and special character password generation with real-time customization support.

Bella Vista — React.js, Node.js, Express.js, MongoDB, REST API

2025

- Built a MERN restaurant system with dynamic menu, cart, and reservation management features included.
- Developed 10+ REST APIs for authentication, booking management, and CRUD backend operations efficiently.
- Implemented JWT authentication, improving backend security, route protection, and session management by 40%.
- Created reusable React components reducing frontend code duplication by 30% across multiple modules.
- Integrated MongoDB to manage 50+ customer order records with efficient real-time database operations.

Competitive Programming and Certifications

- C Programming Competition (Tech Buzz - 2024) - Ranked 10th out of 150 participants in college-level programming competition
- MERN Stack Development Certification - Tutedude
- Basics of Javascript - Infosys
- SQL Developer - Infosys

Coding Platforms

- Solved 80+ algorithmic coding problems on LeetCode covering arrays, linked lists, trees, recursion, dynamic programming, and graph algorithms.
- Strengthened problem-solving skills through regular participation in coding contests and DSA practice.
